

Mineralite – Rammed Earth collection: Used Outside and Inside

The Eco-sensitive charm of Rammed Earth is now reproduced in a flexible stone for wall coverings, allowing you to produce the traditional appearance of rammed earth walls, featuring their rugged texture and aesthetic. Made from stoneware materials, they are environmentally friendly and achieve near zero-carbon emissions.

Mineralite – Supports direct fix application onto wall surfaces, streamlining installation and significantly reducing construction timelines. It is bendable to wrap around columns and curved corners, suitable for both indoor and outdoor applications, be it residential or commercial walls and facades.

- Eco-Friendly:** Made using sustainable materials and processes.
- Fire Rating:** Group 1 (AS 5637.1 & AS 3837)
- Material:** Flexible Stoneware – (feldspar, clay, quartz, oxides and inorganic solid waste)
- Applications:** Wide range of applications, suitable for both interior and exterior walls.
- UV Resistance:** 20 Years
- Product Warranty:** 10 Years
